Can Germans have fun? You bet they can! Bike and Music Weekend at Geiselwind has proved just that since 17 years - and for 11 years at the superb Truck-Stop of Anton Strohofer at Geiselwind/Germany! Top Stunt-, Bikeshow, Dragster- and Burnout-Action plus live-music in- and outdoors make this event „weatherproof“ and always new and hot!

UPDATE 1: Wheels of Steel!

Hardrock-Legende „Saxon“ is Headliner for Bike and Music Weekend 2012 at Geiselwind/Germany!

Hot news for Hardrock headbangers, as Bike and Music Weekend 2012 announced legendary Hardrockers Saxon becoming headliner for the music program!

When it comes to heavy metal, Saxon's history is, indeed, rich. Rightly seen as one of the premier vanguards of Heavy Metal alongside the likes of Iron Maiden, Saxon were a major influence behind platinum-coated stars such as Metallica and Megadeth. Formed as Son of A Bitch in 1976 (and becoming Saxon in 1978) they enjoyed tremendous commercial success in the UK during the '80s, with 8 UK top 40 albums, and have sold over 13 millions albums worldwide, while albums such as Wheels Of Steel, Strong Arm Of The Law, Denim & Leather and The Power & The Glory have become legendary staples of any self-respecting metal fan's collection.

But it has always arguably been on stage where Saxon have excelled the most. There's no hiding once you hit the boards, and whether playing to 20000 people in Buenos Aires or 2000 people in Bolton,

Byford, Carter, Glockler, Quinn and Scarratt source the same high-voltage energy reserves and deliver the same high-octane, blood and sweat-soaked show that makes Saxon a perennial touring favorite.

Saxon is scheduled to be on stage Friday August 3rd indoors at the Music Hall of Autohof Strohofer! For the full lineup of Bands on all stages check out the event website!

BIKE AND MUSIC 2012 WEEKEND CONFIRMED STUNT ACT! Rainer Schwarz!

BIG IMAGE: Stunt Action with Ricardo Domingos in the spectacular NIGHT SHOW 2011!
TOP: Burning rubber in all forms is always a favourite point of the „Bike and Music Weekend“!

TOP: Stunt-action with Ricardo Domingos attracted huge crowds.

What is a “burnout”? The most technical and precise description would be: “The rotational movement of a rubber surface (in most cases a tire...) on a static ground, in case of performing a successful b., mainly tarmac, concrete or other solid matters that won’t give way when under frictional stress, for the reason of transforming the rubber directly into rubber vapour as a form of entertainment”. Or something like that? Almost immediately after the combustion engine became strong enough to spin a rubber tire beyond the needed adhesion to move a car or mo-

torcycle forward, “burnouts” became a popular trademark to start moving: There is rarely a movie where the speeding car or motorcycle is not running away with screaming smoking tires – and this dates back to times when the then cinema’s silent movies still were underlined by piano! Setting aside burning tires during street-riots all over the 3rd World (and sometimes France and Greece, for that matter...), there is one event where you can see the biggest variety of “how-to-burn-rubber” in its most artistic form: The Bike and Music Weekend at Geiselwind/Germany!

In Germany, there is little need to explain the Bike and Music Weekend at Geiselwind: Ever since its conception in 2002 at the current event-site, the Bike and Music Weekend became one of the main German motorcycle-events of Germany. A 4-day program of Dragstershows, Burnouts, Motorcycle-Stunts, live-music and action has been refined year after year. In 2012, the event will celebrate its 17th anniversary and 2012 also marks the 11th annual at Geiselwind Truck Stop. The 2012 show featured no less than 5 professional Stunt-Shows, including Germany’s only Motorcycle-Stunt-Girl Mai-Lin and Portugal’s

Stunt Ace Ricardo Domingos, who is doing stunts on a variety of vehicles!

There is always something new and exciting at the Bike & Music Weekend, but the traditional parts as the Stunt-, Dragster-, Burnout, Custombike- and US-Car Shows always allow the audience to participate and become part of the fun. The visitors can join the Bike- and Car-shows, the Burnout contests and a lot of other activities that are going on on – like Demo Rides by Harley-Davidson and other motorcycle brands. “Basically, we organize the event like we would have it when we visit a motorcycle party”, says

Thomas “Rosti” Voll, well known german Buell and V-Rod Customizer, owner of RRC Customizing and member of the Knight Riders, the franconian Motorcycle Club that helps organising and securing the annual “Bike and Music Weekend” at Geiselwind, “we always want to give our visitors something special, the little extra over the top”!

No less than 15 top music acts will perform in the concert hall and on the outdoor stage. US Car show and Bikeshow will attract superb rides and the crazy „Burnout-Contest“ presents ordinary cars and bikes PLUS vehicles which are specially purpose-built just for this reason: To

burn rubber in the most spectacular fashion! Camping on-site and short ways are a tradition at Geiselwind, which hosts concerts and events almost every weekend. But get a warning: This event is HIGHLY ADDICTIVE! You may BURN SOME RUBBER – and you will feel the urge to come back every year!

HERB MARTINEZ - THE LINE DOCTOR

GREAT NEWS for Bike & Music Visitors 2012: „The Line Doctor“ is coming! Herb Martinez is one of the legends of american custom painting: Having started his Pinstriping business more than 4 decades ago, he has seen the „West Coast“ Hot Rod and Custom Scene developing after his first visit to the „Oakland Roadster Show“ in 1959. Bikers and Hot-Rodders can line up to get their cars and motorcycles pinstriped by one of the „Grandmasters“ of the art! Just watching his steady hand in action is an experience for many, not to forget the stories he is able to tell! Herb was attending the 2011 Magic Bike and will be back in Germany for Bike and Music 2012!
